

ALUMINUM NUT ERK-AN-01

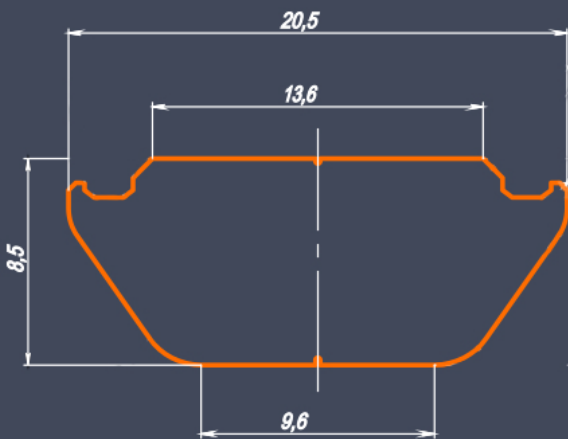

Aluminum nuts are made of good quality

AL6005-T5 to keep anti-corrosive and good mechanical characteristics. The main application for solar sliding nuts is matched for the Hexagonal Socket head bolt; the internal thread size is M8. These fastener kits are designed for solar mid-clamps, solar end-clamps, and clips between alum rails and beams.

PRODUCT FEATURES

Name	Aluminum nut
Material	High-grade aluminum alloy, corrosion resistant
Processing method	Extruded, anodized
Max Wind Load	60 m/s
Max Snow Load	1.4 KN / M2
Color	Black

- There are no oil stains, cracks, corrosion spots, delaminations, air bubbles on the surface of the details.
- The cross-section of the product does not have bends, twists, deformations or protrusions
