

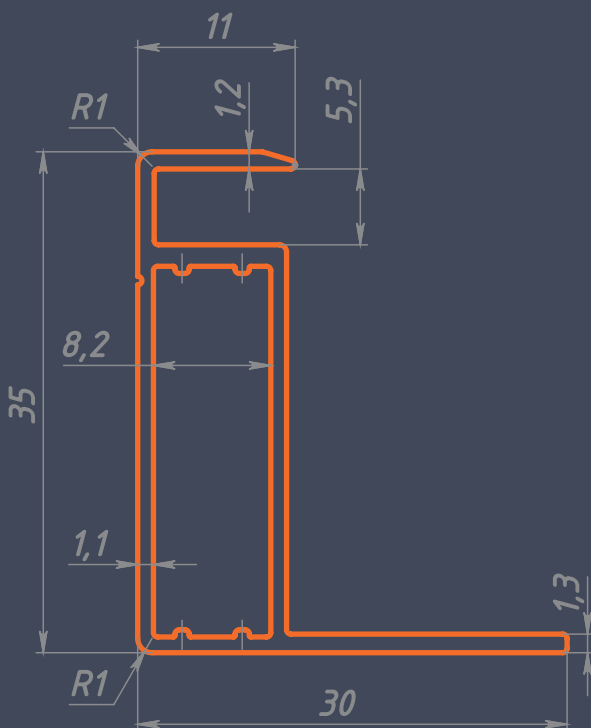

PHOTOVOLTAIC FRAME FLA PF-01

The solar panel frame is an important part assembling a solar panel. Used to seal and fix solar module components. It can protect the solar cell and glass from damage and breakage.

Product features

Name	Photovoltaic frame
Material	High grade aluminum alloy, corrosion resistant Al 6005-T5
Processing method	Extruded, Anodized,
Surface flatness	0,1
Color	Natural silver
Weight	350 (g)
Hardness	≥12 HV

- There are no oil stains, cracks, corrosion spots, delaminations, air bubbles on the surface of the profiles.
- The cross section of the product does not have bends, twists, deformations or protrusions
